Omerga - 413606, Dharashiv

Objective

Proficient and highly motivated Full Stack Developer skilled in both front-end and back-end technologies. Passionate about building scalable, user-friendly applications with clean code. Eager to contribute to innovative teams and gain real-world experience in web development.

Technical Skills

Languages: Core Java, Advance Java, JavaScript, SQL

Front-End: HTML, CSS, React, Sass, LESS

Back-End: Spring, Spring Boot, Hibernate

Database: MySQL

Tools/Other: Git, Vite, APIs (REST), JSON, Postman

Academic Projects

Ecommerce Web Application

Built a feature-rich ecommerce platform using Vite and React, inspired by platforms like Flipkart and Amazon. Implemented product browsing, cart functionality, and a seamless UI.

Todo Task Manager App

Built a modern, responsive todo management app using React and Vite. Features include task creation, status filtering (All, Active, Completed), due dates, priority levels, dark mode toggle, and localStorage-based persistence.

Food Recipe Application

Developed an interactive recipe explorer using TheMealDB API. Categorizes meals and allows users to view detailed instructions and videos for selected dishes.

Education

Bachelor of Science in Computer Science

SSPM Adarsh Mahavidyalaya, Omerga — Graduated: 2023
